**TOWNSHIP OF OLD BRIDGE  
COUNTY OF MIDDLESEX, NEW JERSEY  
RESOLUTION NO. 25-66**

**RESOLUTION ESTABLISHING THE FOURTH ROUND AFFORDABLE HOUSING  
PRESENT NEED AND PROSPECTIVE NEED OBLIGATIONS FOR THE TOWNSHIP  
OF OLD BRIDGE**

**WHEREAS**, on March 20, 2024, Governor Murphy signed into law an Amendment to the Fair Housing Act (N.J.S.A. 52:27D-301 *et seq.*) (hereinafter "Amended FHA"); and

**WHEREAS**, the Amended FHA requires the New Jersey Department of Community Affairs ("DCA") to produce non-binding estimates of fair share obligations for municipalities throughout the State on or before October 20, 2024; and

**WHEREAS**, the DCA issued a report on October 18, 2024 ("DCA Report") wherein it reported its estimate of the obligation for all municipalities based upon its interpretation of the standards in the Amended FHA; and

**WHEREAS**, the DCA Report calculated the Township of Old Bridge's Round 4 (2025-2035) obligations as follows: a Present Need or Rehabilitation Obligation of 318 units and a Prospective Need Obligation of 685 units; and

**WHEREAS**, the Amended FHA provides that the DCA Report is non-binding, thereby inviting municipalities to demonstrate that the Amended FHA would support modified or corrected calculations of the Round 4 affordable housing obligations; and

**WHEREAS**, pursuant to N.J.S.A. 52:27D-304.3, a municipality's average allocation factor is comprised of the equalized nonresidential factor, income capacity factor, and land capacity factor and shall be averaged to yield the municipality's average allocation factor, and

**WHEREAS**, the Amended FHA further provides that "[a]ll parties shall be entitled to rely upon regulations on municipal credits, adjustments, and compliance mechanisms adopted by COAH unless those regulations are contradicted by statute, including P.L. 2024, c.2 [Amended FHA], or binding court decisions" (N.J.S.A 52:27D-311(m)); and

**WHEREAS**, COAH regulations authorize vacant land adjustments as well as durational adjustments; and

**WHEREAS**, the DCA has released a Geographic Information Systems spatial data representation of the Land Capacity Analysis for the Amended FHA containing the Vacant and Developable land information that serves as the basis for calculating the land capacity factor; and

**WHEREAS**, the Township of Old Bridge and its professionals have reviewed the lands identified by the DCA for the land capacity factor with respect to the MOD-IV Property Tax List data, construction permit data, land use board approvals, configuration, and accessibility to ascertain whether these identified developable lands may accommodate development; and

**WHEREAS**, based on the foregoing, Old Bridge Township relies on the DCA calculations of Old Bridge Township's fair share obligations as modified herein to account for the Township's review of the lands identified by the DCA for the land capacity factor with respect to the MOD-IV Property Tax List data, construction permit data, land use board approvals, configuration, and accessibility to ascertain whether these identified developable lands may accommodate development, and as further set forth in detail and explained in the attached memo prepared by the Township's affordable housing professional planner, and Old Bridge Township seeks to commit to provide its fair share of 318 units present need and 325 units

prospective need, subject to any vacant land and/or durational adjustments it may seek as part of the Housing Plan element and Fair Share Plan element it subsequently submits in accordance with the Amended FHA; and

**WHEREAS**, Old Bridge Township reserves the right to comply with any additional amendments to the FHA that the Legislature may enact; and

**WHEREAS**, Old Bridge Township also reserves the right to adjust its position in the event of any rulings issued by New Jersey Superior Courts, or any other such action that alters the deadlines and/or requirements of the Amended FHA; and

**WHEREAS**, in the event that a third party challenges the calculations provided for in this Resolution, Old Bridge Township reserves the right to take such position as it deems appropriate in response thereto, including that its Round 4 Prospective Need Obligation should be lower than described herein; and

**WHEREAS**, in light of the above, the Township Council of the Township of Old Bridge finds that it is in the best interest of the Township to commit to the modified present need and prospective need Fourth Round affordable housing fair share numbers set forth herein, subject to the reservations set forth herein; and

**WHEREAS**, in accordance with AOC Directive #14-24 dated December 13, 2024, the Township Council of the Township of Old Bridge finds that, as a municipality seeking a certification of compliance with the FHA, it is in the best interests of the Township to direct the filing of an action in the form of a declaratory judgment complaint within forty-eight (48) hours after adoption of this Resolution, or by February 3, 2025, whichever is sooner;

**NOW, THEREFORE BE IT RESOLVED**, by the Township Council of the Township of Old Bridge, County of Middlesex, State of New Jersey, as follows:

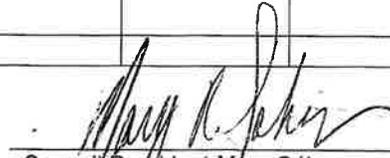

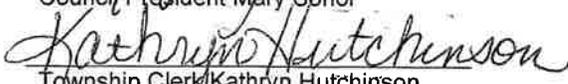

1. All of the above WHEREAS clauses are incorporated into the operative clauses of this Resolution.
2. Old Bridge Township hereby commits to a Round 4 Present Need Obligation of 318 units, and a Round 4 Prospective Need Obligation of 325 units, modified from the DCA's calculations as explained above and in memorandum/report from the Township's affordable housing professional planner attached hereto, and subject to all reservations of rights set forth above.
3. The Township Special Affordable Counsel, and other appropriate Township officials are hereby authorized and directed to take all actions necessary to comply with the requirements of the Amended FHA, including the filing of a declaratory judgment complaint in Middlesex County within forty-eight (48) hours after adoption of this Resolution, attaching a copy of this Resolution as an exhibit to such filing.
4. The Township Special Affordable Counsel and other appropriate Township officials are hereby authorized and directed to submit and/or file a copy of this Resolution with the Program or any other such entity as may be determined to be appropriate.

**BE IT FURTHER RESOLVED** that this Resolution shall take effect pursuant to law.

## EXECUTIVE SUMMARY

The following **Present and Prospective Need Analysis** has been prepared for the Township of Old Bridge in Middlesex County, New Jersey.

By way of background, the State of New Jersey adopted A-4/S-50 on March 20, 2024. This legislation overhauled the Fair Housing Act (FHA) by abolishing the Council on Affordable Housing (COAH) and splitting its duties between the Department of Community Affairs (DCA) and the Administrative Office of the Courts (AOC).

The DCA was designated as the entity responsible for calculating the state's regional needs as well as each municipality's present and prospective fair share obligations. These municipal calculations, which were released on October 18, 2024, are advisory only. Each municipality is responsible for setting its own obligation utilizing a similar methodology by January 31, 2025, through the adoption of a resolution.

The process for Fourth Round affordable housing compliance and the criteria, methodology and formulas each municipality must rely upon to determine its present and prospective need obligation are now set forth within N.J.S.A. 52:27D-304.1 thru -304.3 of the FHA. The March 8, 2018, unpublished decision of the Superior Court, Law Division, Mercer County, in re Application of Municipality of Princeton ("Jacobson Decision") is also to be referenced as to datasets and methodologies that are not explicitly addressed in N.J.S.A. 52:27D-304.3.

Both the Jacobson Decision and N.J.S.A. 52:27D-304.3a of the FHA explain that the datasets and information must be reliable and updated to the greatest extent practicable. For example, N.J.S.A. 5:27D:304.3a explicitly states: "These calculations of municipal present and prospective need shall use necessary datasets that are updated to the greatest extent practicable." Likewise, the Jacobson

Decision quotes Judge Serpentelli's guiding principles in AMG regarding the fair share methodology:

*"Any reasonable methodology must have as its keystone three ingredients: reliable data, as few assumptions as possible, and an internal system of checks and balances. Reliable data refers to the best source available for the information needed and the rejection of data which is suspect. The need to make as few assumptions as possible refers to the desirability of avoiding subjectivity and avoiding any data which requires excessive mathematical extrapolation. An internal system of checks and balances refers to the effort to include all important concepts while not allowing any concept to have a disproportionate impact."*

On October 18<sup>th</sup>, 2024, the New Jersey Department of Community Affairs (DCA) published the report titled, "Affordable Housing Obligations for 2025-2035 (Fourth Round): Methodology and Background" (hereinafter "DCA Report") pursuant to P.L. 2024, c.2. This report implemented a new framework for determining each municipality's affordable housing obligations under the New Jersey Supreme Court's Mount Laurel doctrine and the State's Fair Housing Act.

The purpose of this analysis is to review the DCA's calculation of the Township of Old Bridge's Present and Prospective Need Obligation for the years 2025 to 2035.

The methodology to calculate a municipality's prospective fair share obligation consists of three factors: the Equalized Nonresidential Valuation factor; the Income Capacity Factor; and the Land Capacity Factor. The subject of this report is the **Land Capacity Factor**. The other two (2) factors are not modified/refined as part of this exercise, as the data required to be used is not readily refinable through local review. Herein, several adjustments are offered to ensure the data utilized by the DCA is correct in determining the Township's Prospective Need Obligation. Many of these corrections relate to such issues as sites

being incorrectly identified as vacant when in fact they are developed or are currently under construction, recently received Planning Board approvals or sites environmentally constrained that are mistakenly identified as being available for development; slivers of sites that are the result of geo-spatial layers that were not properly lined up; and others as detailed in the body of this report. As a result, the Township's Land Capacity Factor, has been revised.

Table 1 enumerates DCA-assigned Old Bridge's factors and proposed revised Land Capacity Factor. **These corrections alter the Township's Prospective Need Obligation from 685 to 325 affordable units (reduction of 360 units).** Note that the Township will conduct a vacant land adjustment (VLA) to determine its realistic development potential (RDP) at a later date. Old Bridge anticipates that the adjustment will be substantial.

<b>Table 1. Summary of Factors influencing Prospective Fair Share Obligation</b>			
	<b>Equalized Nonresidential Valuation Factor</b>	<b>Income Capacity Factor</b>	<b>Land Capacity Factor</b>
<b>DCA Analysis</b>	<b>3.02%</b>	<b>2.39%</b>	<b>12.32%</b>
<b>Township Analysis</b>	<b>3.02%</b>	<b>2.39%</b>	<b>2.99%</b>

The Township's Fourth Round Present Need/Rehabilitation Obligation is unaffected by this refinement and remains at **318 units**. Any unsatisfied obligations from prior rounds must also be met.

**CALCULATING THE PROSPECTIVE NEED**

To determine each municipality's fair share of affordable housing units, the following three (3) factors were calculated by DCA:

**Equalized Nonresidential Valuation Factor:**

This factor is described as, "...the changes in nonresidential property valuations in the municipality, since the beginning of the round preceding the round being calculated..." per the Affordable Housing Law. Legislation requires that this factor be calculated using the NJ Division of Local Government Services Property Value Classification Files. *Old Bridge Township's Equalized Nonresidential Valuation Factor was determined to be 3.02%.*

**Income Capacity Factor:**

This is the average of, "...the municipal share of the regional sum of the differences between the median municipal household income, according to the most recent American Community Survey Five-Year Estimates, and an income floor of \$100 below the lowest median household income in the region," and "...the municipal share of the regional sum of the differences between the median municipal household incomes and an income floor of \$100 below the lowest median household income in the region, weighted by the number of the households in the municipality." *Old Bridge Township's Income Capacity Factor was calculated at 2.39%.*

**Land Capacity Factor:**

This factor is the total acreage that is developable, calculated utilizing the most recent land use / land cover (LULC) data from the New Jersey Department of Environmental Protection (DEP), the most recently available (released in 2024) MOD-IV Property Tax List data from the Division of Taxation in the Department of the Treasury, and construction permit data from the Department of Community Affairs. *Old Bridge Township's Land Capacity Factor was calculated at 12.32%.*

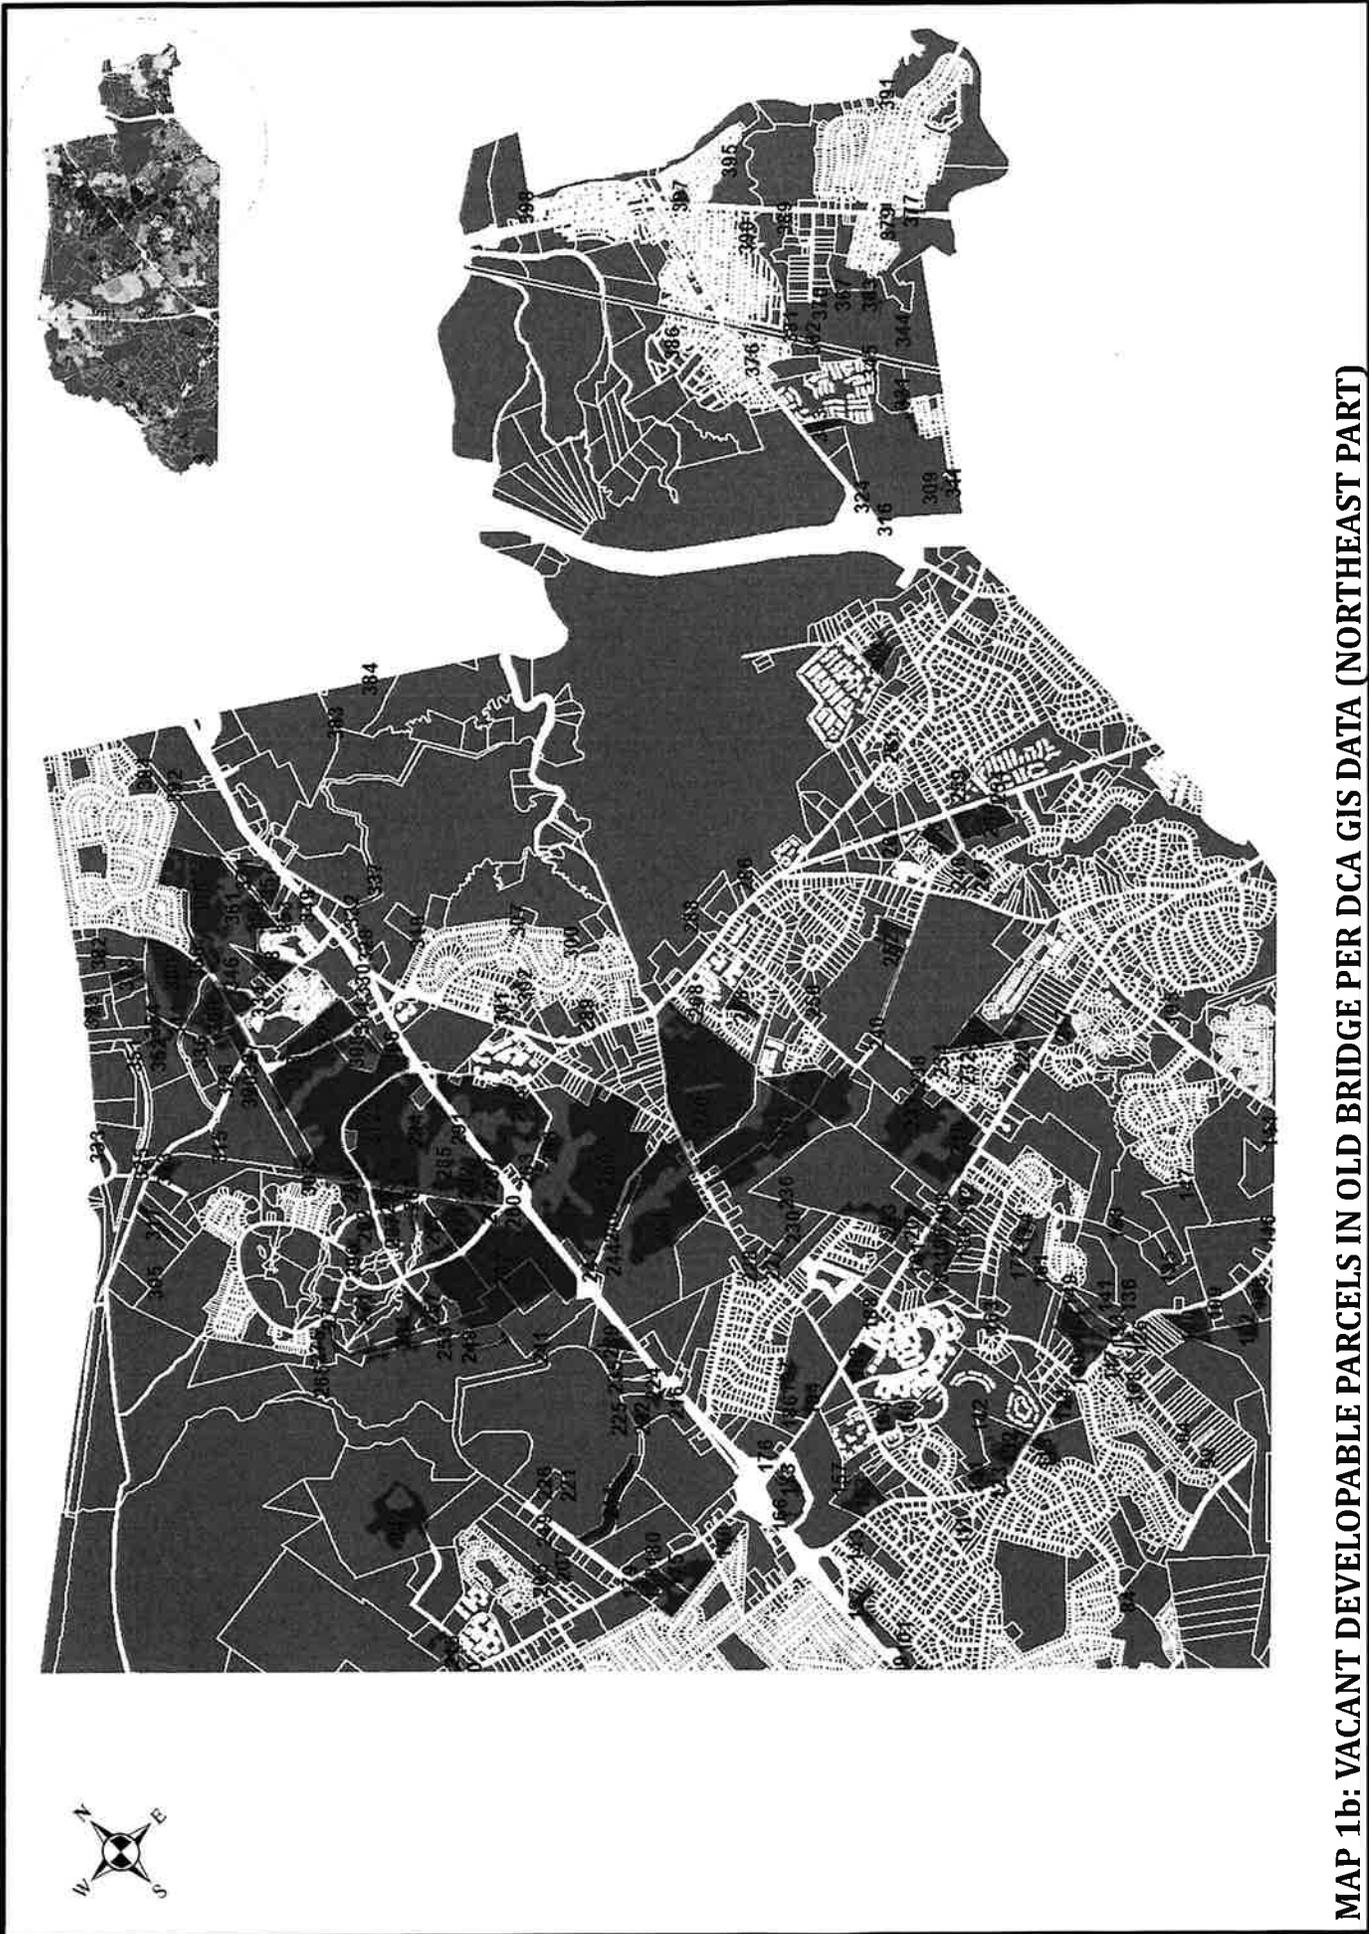

**MAP 1: VACANT DEVELOPABLE PARCELS IN OLD BRIDGE PER DCA GIS DATA**

**MAP 1a: VACANT DEVELOPABLE PARCELS IN OLD BRIDGE PER DCA GIS DATA (SOUTHWEST PART)**

**MAP 1b: VACANT DEVELOPABLE PARCELS IN OLD BRIDGE PER DCA GIS DATA (NORTHEAST PART)**

Old Bridge Township – Fourth Round Present and Prospective Need

The Township’s Land Capacity Factor was determined by the DCA to be 12.32%, or 1271.5<sup>2</sup> developable acres spread out over 398 different tracts (the output dataset did not identify parcels, but rather, tracts of land that were considered developable). Acreages are calculated before the 1.0 weighting factor, which is applied after all parcels are totaled. The complete list of all of these tracts is in **Appendix A**.

To refine this number and provide a more detailed, accurate depiction of the actual available vacant and developable land in the Township, the list of developable areas further excluded the following areas:

1. Lands that were non-contiguous to other vacant, developable lands and that were under one (1) acre<sup>3</sup>. This eliminated **265** tracts, or **86.88** acres with a remainder of 1184.68 acres to be further evaluated. **See Appendix B**.
2. Lands that were significantly irregular in shape, landlocked and/or inaccessible<sup>4</sup> or are slivers. This eliminated **39** tracts or **251.52** acres with a remainder of 933.16 acres to be further evaluated. **See Appendix C**.
3. Lands that are owned by other government entities, quasi-governmental organizations and/or other municipalities are excluded from the developable area. This category includes tracts owned by Old Bridge Municipal Utility Authority, tracts that are currently on the Township’s Recreation Open Space Inventory (ROSI) and part of the municipal golf course. The Nike site is owned by the US Government. **See Appendix D**. This eliminated **11** tracts, or **59.72** acres with a remainder of 873.44 acres to be further evaluated.

<sup>2</sup> The DCA Fourth Round Calculation Workbook identifies the total developable acreage spread out over 398 different tracts to be 1271.5 acres. This report utilizes a developable acreage of 1271.5 acres. Using 1271.5 acres changes the DCA LCF to 2.99% and the AAF to 2.80%, however, the prospective need obligation of 318 remains unchanged.

<sup>3</sup> One (1) acre is the generally accepted amount of acreage required to create at least six (6) affordable housing units through new development. Noncontiguous tracts under one (1) acre were excluded as they could not realistically provide at least six (6) units of affordable housing.

<sup>4</sup> The Vacant Land Output dataset did not result in parcels that were developable, rather tracts, regardless of whether they have street frontage. Developable areas without street frontage cannot realistically provide new affordable housing units.

4. Lands with factors limiting development that were not necessarily accounted for in the DCA calculation. These included factors such as riparian areas, wetlands and their transition areas, and location within a flood hazard area. **See Appendix E**. This eliminated **5** tracts, or **4.34** acres with a remainder of 869.10 acres of land to be further evaluated.

5. Lands with existing development, lands that are currently under construction or lands with development approvals or inclusionary zoning in place that were identified in the Township’s Third Round Housing Element and Fair Share Plan or are part of an approved General Development Plan and are under construction or review<sup>5</sup>. This resulted in the removal of **46** tracts, or **568.94** acres with a remainder of 300.16 acres of land to be further evaluated. **See Appendix F**.

- **Tract #19**. This tract of land contains a salon and its associated parking.
- **Tract #28**. This tract of land received approval from the Zoning Board of Adjustment (Application #95-2006Z & 64-2008Z) for mixed-use development. The resolution of approval requires this tract of land to be developed for the commercial component of the mixed use. The residential component is built.
- **Tract 42**. This tract is part of the 2006 Crossroads Redevelopment Plan. An application is scheduled for a public hearing (February 27, 2025) in front of the Planning Board for a 70-unit age-restricted housing project with 20% units set aside for low- and moderate-income households.

<sup>5</sup> Though the most recent DCA Construction Reporter data is used, what has actually been developed is not necessarily reflected in this data. As such, local review of DCA outputs can confirm on a site-by-site basis.

Old Bridge Township – Fourth Round Present and Prospective Need

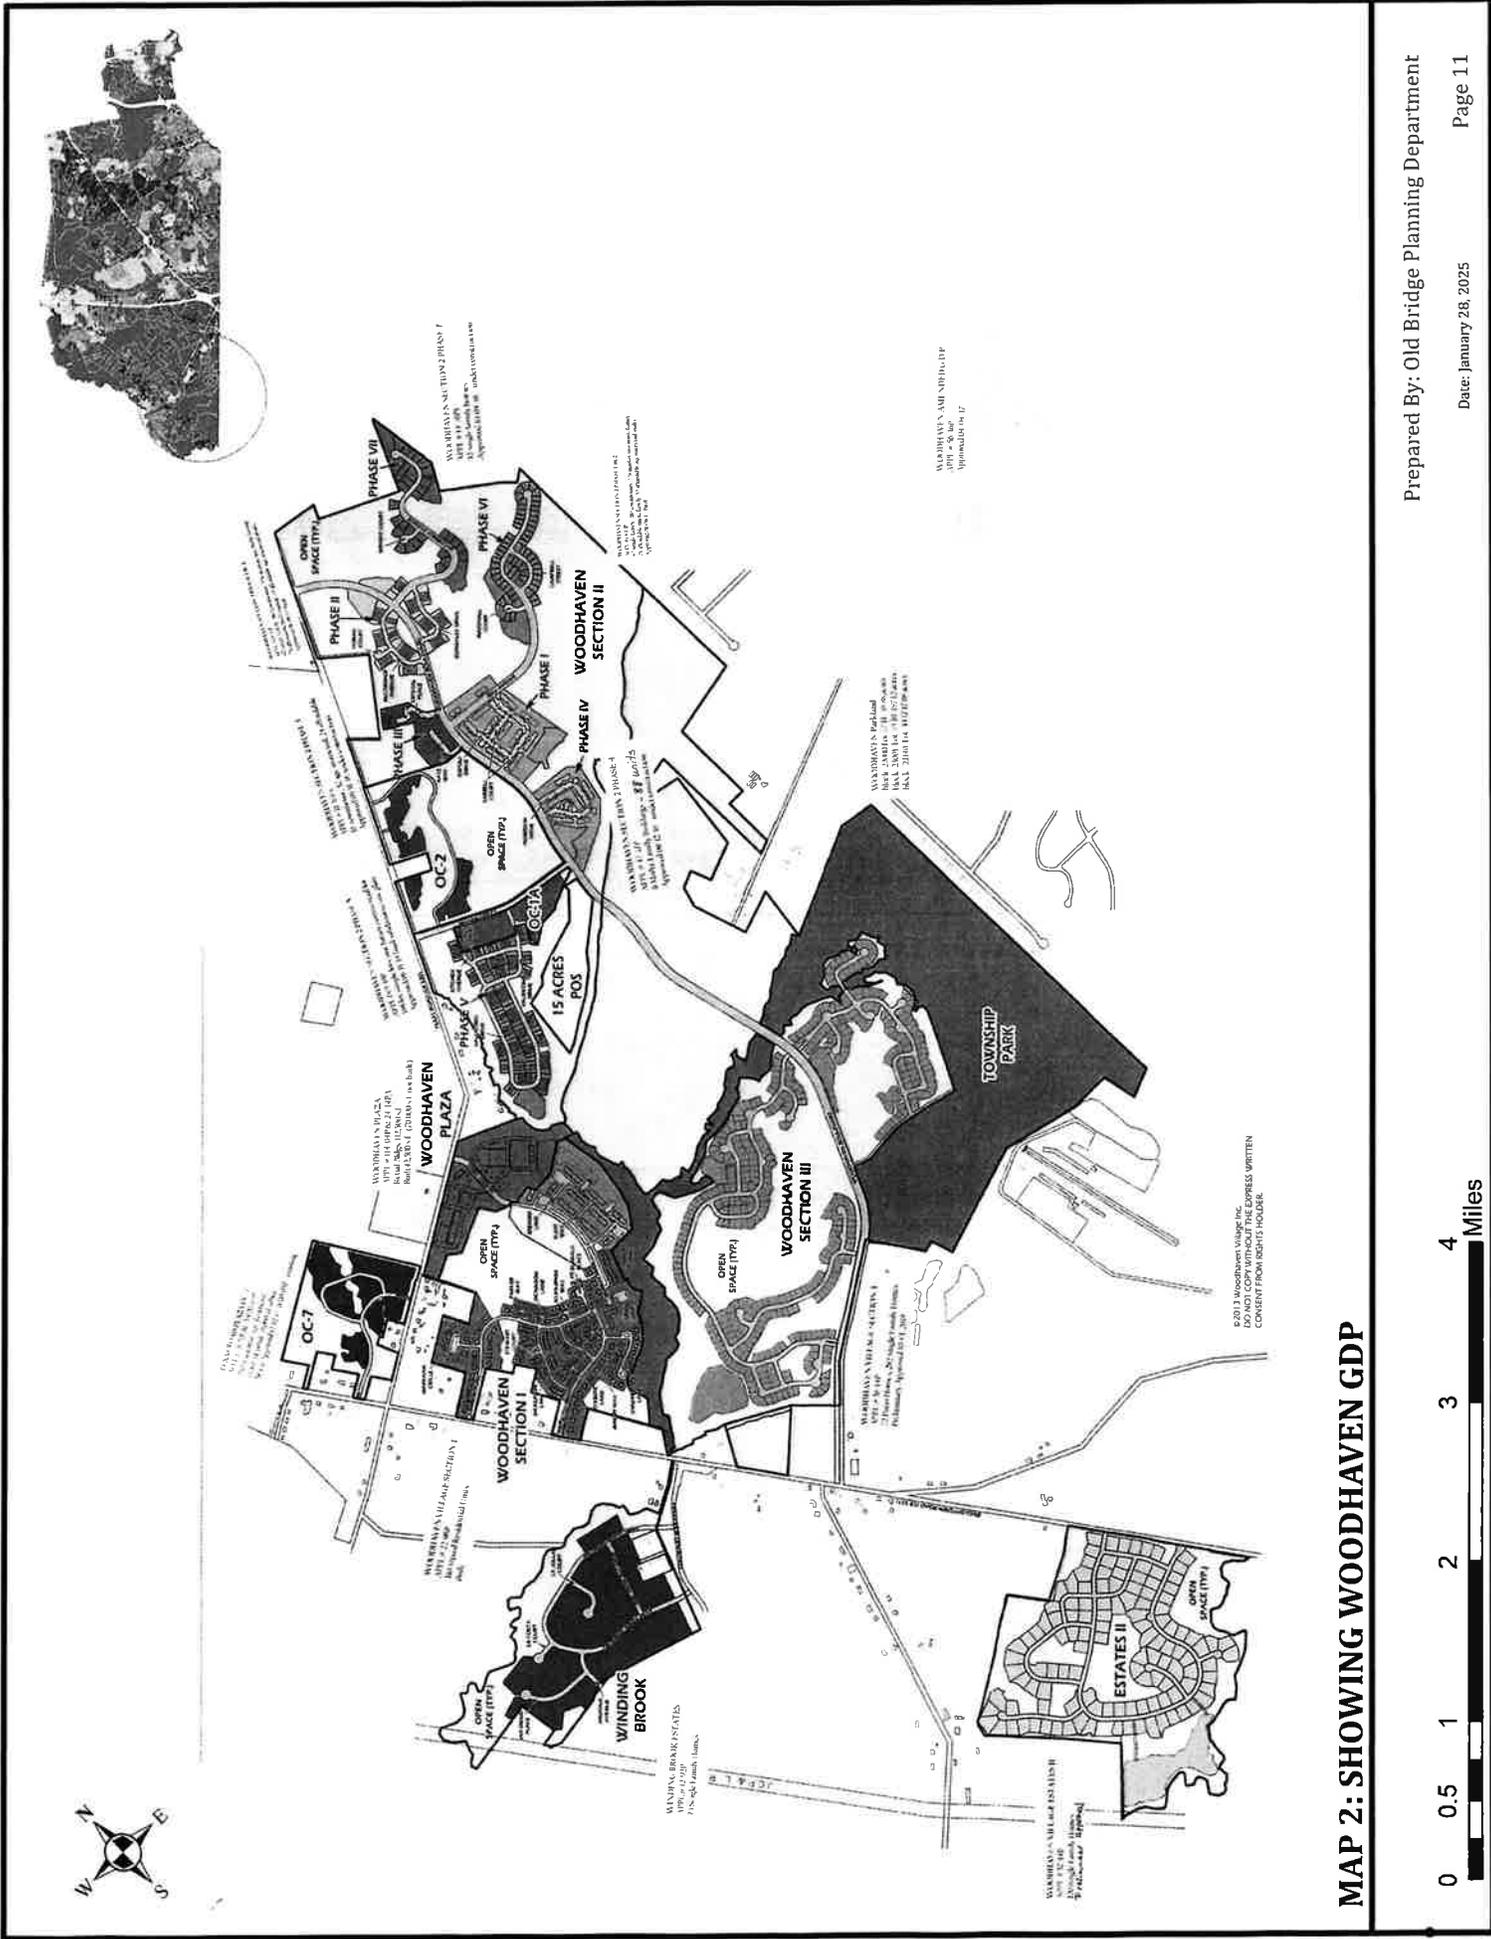

- **Tract #182.** In 2018, the Planning Board (Application # 17-2018P) approved approximately 35,000 sf of retail and commercial use. The property is significantly constrained by wetlands and their transition areas.
- **Tract # 78.** The Zoning Board recently approved this tract of land for outdoor vehicle storage area ancillary to the existing All American Ford dealership (Application # 50-2023Z).
- **Tract 166, 173, 214 and 224.** These tracts are part of open space for an existing development (a house of Worship and Glenwood apartments).
- **Tract #222.** The Zoning Board recently granted a use variance to construct a garage/maintenance building on this tract of land for an existing apartment complex. (Application ##32-2022Z)
- **Tract # 21, 22, 24 and 32.** These tracts are part of the approved Woodhaven General Development Plan (GDP). The GDP was part of the second-round obligation and contained inclusionary development that was approved by the Planning Board. Phase I and II of the GDP is built while Phase III, IV, VII and OC-7 are under construction. The Woodhaven GDP area is shown on MAP 2 on page 11.
- **Tract # 257, 262, 264, 270-273, 277, 282, 287, 290, 292, 293 and 299.** These tracts are part of the Oaks 1 GDP. The approved Oaks 1 GDP contains a mixed-use development with 1,312 residential units, including 138 affordable residential units and 600,000 sf of commercial use. The residential portion of the development was granted Preliminary and Final approval. Final Resolution was approved February 1, 2005, and memorialized March 1, 2005. Commercial phase 1 of the non-residential component is currently

under construction. The single-family home development of the Oaks 1 is nearly complete. The multi-family residential portion and the associated roadway network are also currently under construction. The Oaks 1 GDP area shown on MAP 3 on page 13.

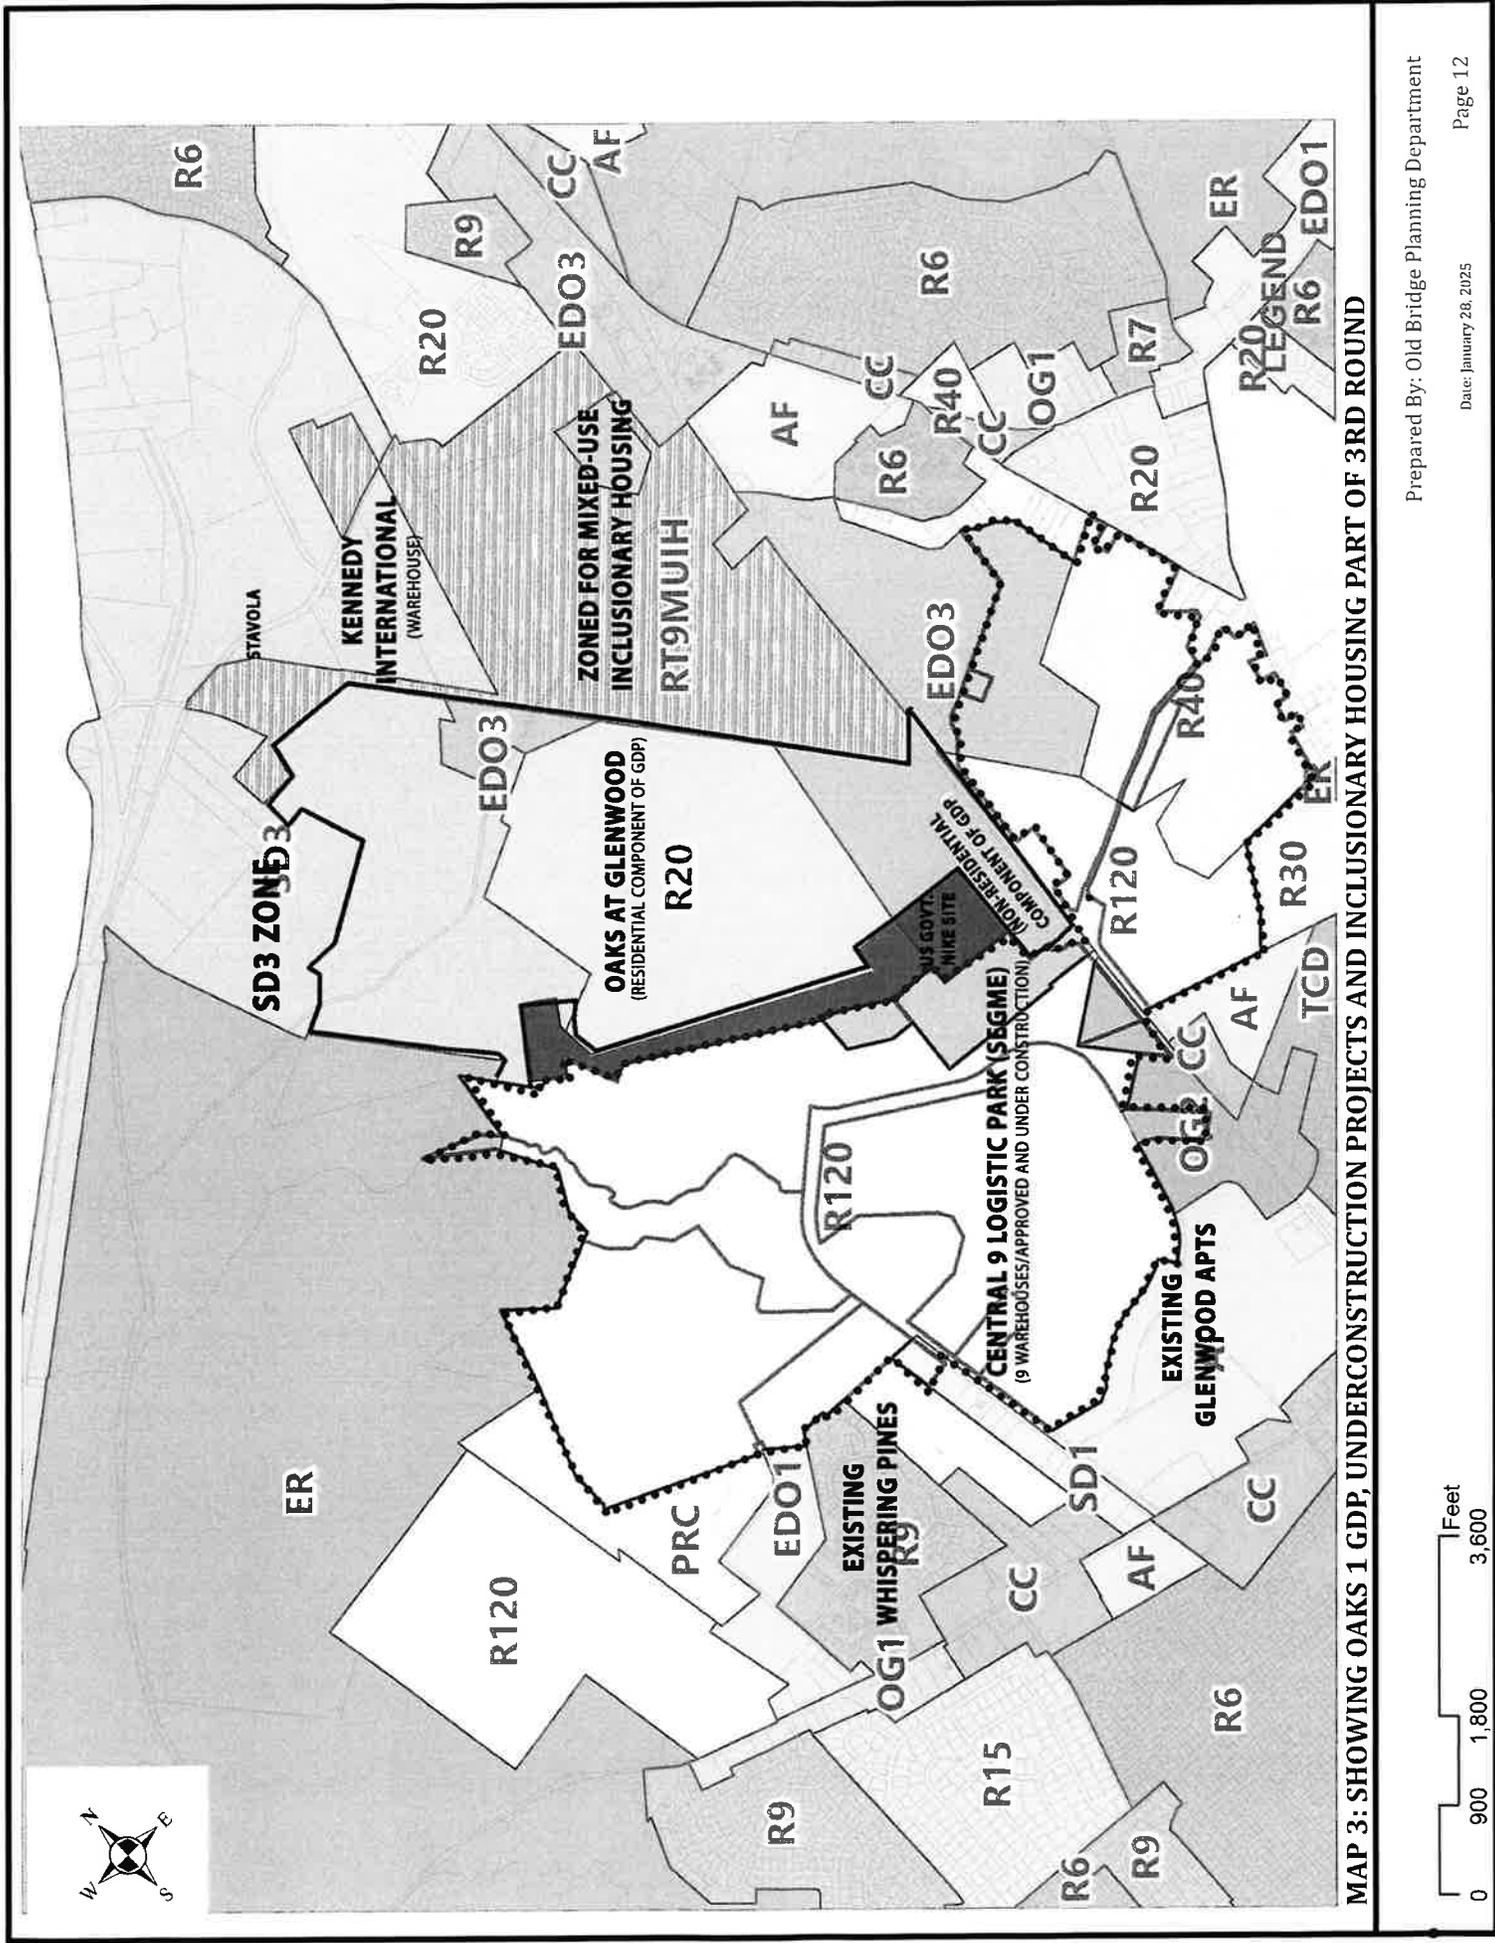

- **Tract # 242, 249, 251, 263, 266, and 269.** These tracts which encompass approximately 152 acres of land are part of a redevelopment plan and Planning Board approvals that allowed construction of 9 warehouse buildings spread over almost 800 acres of land on either side of US Highway 9. The sites are currently under construction or are going through New Jersey Department of Environmental Protection (NJDEP) review for wetland delineation and flood hazard permitting.
  - **Tract # 294, 311, 312, 318, 322, and 343.** As part of the Third Round Settlement Agreement, in 2016, the Township created the Route 9 Mixed Use-Inclusionary Housing Center Zone (RT9MUIH) and adopted an ordinance that rezoned the Oaks Property, Wharton Property and Brunetti Property to provide for the approval of inclusionary development. The ordinance establishes zoning standards that provide for an inclusionary development which includes no more than two thousand one hundred forty-eight (2,148) residential units of which 1,718 will be market-rate units and 430 will be affordable rental units (20% set-aside) and other non-residential development (commercial, retail, office and light industrial) on the property.
  - **Tract #304.** This tract received approval from the Zoning Board (Application # 16-19Z and 32-2013Z and 16-2019Z) to subdivide and create 13 lots. The site is currently under construction.
6. Remaining refined, developable lands that were included in

Old Bridge Township – Fourth Round Present and Prospective Need

the DCA Report and not excluded as part of this review are provided in **Appendix G**. This final table resulted in **300.16 acres** of land unweighted. With a weighting factor of 1.0 for Planning Area 1 and 2, the total vacant developable land for the Land Capacity Factor was calculated at **300.16 acres**.

MAP 2: SHOWING WOODHAVEN GDP

MAP 3: SHOWING OAKS 1 GDP, UNDERCONSTRUCTION PROJECTS AND INCLUSIONARY HOUSING PART OF 3RD ROUND

Old Bridge Township – Fourth Round Present and Prospective Need

**CALCULATING THE REVISED DEVELOPMENT POTENTIAL**

Removing the tracts described above would adjust the Township’s weighted land area from 1271.5 acres to 300.16 acres.

**Step 1:** The adjustment to the Township’s weighted developable land area also adjusts the region’s weighted land area from 10,324 acres<sup>6</sup> to 10,023.82 acres.

**Step 2:** This results in an adjustment of the Township’s calculated share of the region’s land capacity from 12.32% to 2.99% ( $300.16/10,023.85=0.02994$  or 2.99%)

**Step 3:** As discussed earlier, the Equalized Non-residential Valuation Factor and Income Capacity Factor for Old Bridge are 3.02% and 2.39%. These two factors cannot be changed. The only factor that can be changed is the Land Capacity Factor. We now calculate the average factor is an average of the nonresidential valuation factor, regional income factor and adjusted Land Capacity Factor. The three factors are averaged below:

- 3.02%
- 2.39%
- 2.99%
- 8.40%

$8.40/3 = 2.80\%$

**Final Step:** Finally, multiply the average factor of 2.80% with Region 3’s prospective need of 11,604 units to get the adjusted prospective need obligation. Old Bridge’s adjusted prospective need obligation is **324.9 units (11,604 X 2.80%)**.

The total resulting vacant developable lands following this analysis was **300.16 acres**. This results in a refined Land Capacity Factor of **2.99%** (the number of developable acres (300.16 acres) divided by the total number of developable acres in the region (10,023.85 acres)). The average allocation factor (AAF, or the average of all three factors mentioned in the prior section of this report)<sup>7</sup> then **decreases from 5.91% to 2.80%**. Region 3’s total prospective need obligation is 11,604 units. With an AAF of 5.91%, the Township’s obligation is **685 units**; with a refined AAF of **2.8%**, the Township’s obligation is **325 units** (a decrease of **360 units**).

*Summary of Prospective Need Calculation*

Region	3	
Region Prospective Need		11,604 units
Region Vacant, Developable Land		10,324 ac.
Region Adjustment Factor		0.9999
Old Bridge’s Equalized Nonresidential Valuation Factor		3.02%
Old Bridge’s Income Capacity Factor		2.39%
	<b>DCA</b>	<b>Refined</b>
Old Bridge’s Vacant Developable Land	1271.5 ac.	<b>300.16 ac.</b>
Old Bridge Land Capacity Factor	12.32%	<b>2.99%</b>
Average Allocation Factor	5.91%	<b>2.80%</b>
<b>Prospective Need Obligation</b>	<b>685</b>	<b>325 units</b>

<sup>7</sup> The Average Allocation Factor (AAF) is the average of the municipality’s Equalized Nonresidential Valuation Factor, Income Capacity Factor, and the Land Capacity Factor.

<sup>6</sup> DCA GID Land Capacity Analysis data

## Old Bridge Township – Fourth Round Present and Prospective Need

### SUMMARY

Pursuant to N.J.S.A. 52:27D-304.3a and the Jacobson Decision, our office has prepared more detailed analysis of the vacant land and have further examined the published DCA Land Capacity Factor dataset with the up-to-date verifiable Township's data. Using the formulas, criteria, methodology and datasets required by sections 6 and 7 of P.L. 2024, c. 2 (N.J.S.A. 52:27D-304.2 and -304.3), we have further arrived at the Township's updated Land Capacity Factor, which in turn resulted in the downward adjustment in the Township's average allocation factor and ultimately the Township's Prospective Need Obligation. In accordance with the same, the tables within Appendices B, C, D, E, F and G, of this report identify and summarize the ineligible parcels included in the DCA's published Land Capacity Analysis GIS Composite Layer dataset that should not have been determined to be developable, along with the basis for our conclusion.

This determination is of course subject to further adjustments and reductions as permitted in the FHA and regulations associated therewith.

The methodology used to identify and exclude parcel types listed in the analysis contained within this report is consistent with the published DCA Report. The data, data sources, methodology, criteria and formulas relied upon in completing this analysis and arriving at these opinions, including the calculation of the Township's Prospective Need Obligation, was performed in accordance with sections 6 and 7 of P.L. 2024, c. 2 (N.J.S.A. 52:27D-304.2 and N.J.S.A. 52:27D- 304.3) and the Jacobson Decision. All opinions and conclusions set forth herein are within a reasonable degree of professional planning certainty. We reserve the right to amend and supplement our findings, opinions and conclusions should additional information be made available at a later date.

This analysis relies upon the methodology utilized by DCA in determining municipal affordable housing obligations. It uncovers data that was relied upon by the DCA which incorrectly includes sites and acreage which should not have been included in the determination of the Township's Prospective Need Obligation. As detailed within this analysis, the adjustments noted herein reduce the Township's Prospective Need Obligation from 685 affordable units to **325 affordable units**. Note that irrespective of the Land Capacity Factor analysis established herein, the Township will conduct a vacant land adjustment (VLA) to determine its realistic development potential (RDP) at a later date and anticipates that the adjustment will be substantial.

Old Bridge Township – Fourth Round Present and Prospective Need

**APPENDIX A. VACANT LAND OUTPUT**

This table lists every tract determined to be “vacant, developable land” per the DCA Report. Acreages are calculated before the 1.0 weighting factor, which is applied after all parcels are totaled, since every tract is given a weighted factor of 1.0 per P.L. 2024, c.2.

List of Vacant, Developable Tracts – Result of DCA Analysis

<b>Total Vacant, Developable Land (acres)</b>	<b>1271.56</b>
---	----------------

Old Bridge Township – Fourth Round Present and Prospective

**APPENDIX B. NON-CONTIGUOUS TRACTS UNDER 1.0 ACRE**

One (1) acre is the generally accepted acreage required to create at least six (6) affordable housing units through new development. Non-contiguous tracts under one (1) acre were excluded as they could not realistically provide for at least six (6) units of affordable housing. Tracts highlighted in **yellow** are eliminated in this step. Acreages are calculated before the 1 weighting factor, which is applied after all parcels are totaled.

Old Bridge Township – Fourth Round Present and Prospective

<b>Total Vacant, Developable Land (acres)</b>	<b>1271.56</b>
<b>Tracts &lt;1.0 Ac. (Appendix B)</b>	<b>-86.88</b>
<b>Tracts Eliminated (this step)</b>	<b>265</b>
<b>Total Vacant, Developable Land</b>	<b>1184.68</b>

Old Bridge Township – Fourth Round Present and Prospective

**APPENDIX C. IRREGULARLY SHAPED, SLIVERS AND/OR LANDLOCKED TRACTS**

Tracts that are irregular in shape or landlocked, making new development not feasible, are eliminated as vacant, developable land. Tracts highlighted in **blue** are eliminated in this step. Acreages are calculated before the 1.0 weighting factor, which is applied after all parcels are totaled.

List of Vacant, Developable Tracts - Removing Irregular or Landlocked Tracts

Old Bridge Township – Fourth Round Present and Prospective

**APPENDIX D. GOVERNMENT, QUASI-GOVERNMENT, AND STATE ENTITY OWNED PROPERTIES**

After the steps completed in Appendices B through C, the remaining tracts were reviewed for ownership. Many of the properties marked as vacant in DCA’s GIS data are owned by the Old Bridge Municipal Utility Authority, owned by Borough of Sayreville, or owned by United States Government. Some of the parcels are also on the Old Bridge Township’s Recreation Open Space Inventory (ROSI). These parcels are not developable for inclusionary housing and must be excluded. Tracts highlighted in **purple** are eliminated in this step.

**APPENDIX E. ENVIRONMENTAL CONSTRAINTS**

After the steps completed in Appendices B through D, the remaining tracts were reviewed for environmental constraints including wetlands and their transition areas, flood hazard areas, riparian zones, etc. The properties were also evaluated to see if they lie within the sewer service area; however, a request can be made to the County to include parcels within a sewer service area, parcels not served were not eliminated. No tracts were omitted from this section, but several lots had reductions in their developable acreage due to the presence of wetlands, wetland transition areas, and/or riparian areas. Tracts highlighted in **orange** are eliminated in this step.

**APPENDIX F. DEVELOPED LANDS WITH APPROVALS FOR DEVELOPMENT**

Tracts which are situated on parcels that have received Planning Board approvals, or parcels that are a part of an inclusionary zone identified in the 2020 Housing Element and Fair Share Plan are eliminated as vacant, developable land as the land has already been committed to development. Tracts highlighted in **green** are eliminated in this step. Acreages are calculated before the 1.0 weighting factor, which is applied after all parcels are totaled.

**APPENDIX G. REFINED LIST OF VACANT, DEVELOPABLE TRACTS**

This table displays the refined DCA list of vacant developable tracts which are essentially the tracts that did not get excluded in Appendices B, C, D, E and F. In order to calculate the final refined (but unweighted) vacant, developable land acreage of 124.41 acres, the riparian area percentage (if applicable) was subtracted from the DCA tract developable acreage. Acreages are calculated before the 1 weighting factor, which is applied after all parcels are totaled.
